What's the GenericsAdvantageRx drug list?

This is the list of medicines (sometimes called a formulary) covered by your health plan. The drug list is reviewed by a team of experts every three months for new medicines, safety alerts and other updates.

Who decides what's on the drug list?

The HealthPartners Pharmacy and Therapeutics Committee manage the list. This team of experts focuses on safety, effectiveness and affordability. Visit **healthpartners.com/pharmacy** for more information.

How do you use the drug list?

The medicines are listed in alphabetical order by type of medicine starting on page 4.

Generic medicines are in *lowercase italics* (e.g., *cephalexin*). These medicines are safe and effective but cost less than brand medicines.

Brand medicines are in ALL CAPS (e.g., KEFLEX) and are more costly than generic medicines.

The **Tier** is used to determine how much a medicine will cost you. For exact cost information,

- Find the tier status for your medicine.
- Review your Summary of Plan Benefits or contract for the copay or coinsurance for that Tier Status. Or,
- Log on to your *my*HealthPartners account to check your pharmacy benefits.

  - Tier 1 – Preventive Generics
  - Tier 2 – Preventive Brands
  - Tier 3 – All other Formulary Generics & Brands
  - Tier 4 – Specialty Generics & Brands

What's a Specialty Medicine?

Specialty medicines are usually prescribed by doctors whose focus is on the treatment of chronic and complex diseases. These medicines usually require more management, have a high price and aren't always stocked at retail pharmacies. Prescriptions for these medicines must be filled at a specialty pharmacy and are often covered at a different benefit than non-specialty medicines. Log on to your *my*HealthPartners account and click on *My plan benefits* on the Medical Plan tab to check your benefits for specialty medicines.

What do the abbreviations under *Limits & Restrictions* mean?

Special information about the medicine you're searching for. The abbreviations let you know there might be a special program or rule for the medicine. Use this key to help you navigate the drug list:

- PA - Prior Authorization Required
- ST - Step Therapy Required
- AL1 - Age Limit
- AQ1 – Age Quantity Limit
- QL - Quantity Limit
- SC - Smoking Cessation Benefit
- WL - Weight Loss Benefit
- ONC - Oncology Benefit
- TD - Trial Drug Program
- S – Specialty

Why do you need prior authorization (PA) for some medicines?

Even though some medicines are on the drug list, they need to meet the HealthPartners prior authorization criteria in order for the medicine to be covered by your pharmacy benefits.

What's Step Therapy (ST)?

Some medicines are on the drug list, but you need to try one or more other medicines first. HealthPartners covers a medicine with step therapy, if you've already tried the other medicine(s). If you haven't, you or your doctor will need to get approval from HealthPartners before the medicine will be covered by your lowest brand, generic or specialty copay or coinsurance.

What's an Age Limit (AL1)?

An age edit means some medicines are only covered if you're within a specific age range. If you're not in the approved age range, you or your doctor will need to request approval from HealthPartners for your medicine to be covered.

What's an Age Quantity Limit (AQ1)?

An age quantity limit means some medicines have a quantity limit that only applies to a specific age range. If you're not in the approved age range, you or your doctor will need to request approval from HealthPartners for your medicine to be covered.

What's a Quantity Limit (QL)?

This means HealthPartners limits the amount of the medicine you'll get each time you fill your prescription. The quantity limit may be less than the day supply listed in your contract or Summary Plan Description.

What's the Trial Drug Program (TD)?

The trial drug program is for new prescriptions for certain medicines that may not be well tolerated due to:

- Side effects
- High cost
- High potential for waste

Your first 6 fills of a trial drug may be limited to less than a month supply. If the medicine works well, you'll get the rest of your month supply. If a copay applies to the medicine, you'll pay no more than one copay for each one month supply.

What's the Weight Loss Benefit (WL)?

This type of medicine may have limits on the amount you get or may not be covered under all plans. Log on to your *my*HealthPartners account and click on *My plan benefits* on the Medical Plan tab to check your benefits for weight loss. Weight Loss medicines are listed on the drug list under the Weight Loss medicine category.

What's the Oncology Benefit (ONC)?

These are oncology (cancer) medicines that must be filled at a specialty pharmacy, but you're only responsible for your regular generic or brand pharmacy copay or coinsurance.
