## Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter (OTC) drugs and non-drug products and items are covered by HealthPartners MSHO. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by HealthPartners MSHO. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

## A. Disclaimers

This is a list of drugs that members can get in HealthPartners MSHO.

HealthPartners is a health plan that contracts with both Medicare and the Minnesota Medical Assistance (Medicaid) program to provide benefits of both programs to enrollees. Enrollment in HealthPartners depends on contract renewal.

You can always check HealthPartners MSHO's up-to-date *List of Covered Drugs* online at [healthpartners.com/medicarerx](https://healthpartners.com/medicarerx) or by calling Member Services at the numbers listed at the bottom of the page. This call is free.

You can get this document for free in other formats, such as large print, braille, or audio. Call Member Services at the number listed at the bottom of this page. This call is free.

To make or change a standing request to get this document, now and in the future, in a language other than English or in an alternate format, call Member Services at the number at the bottom of this page. This call is free.

## B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more or look for a question and answer.

---

### B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the *List of Covered Drugs* that starts in section C are the drugs covered by HealthPartners MSHO. The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- HealthPartners MSHO will cover all medically necessary drugs on the Drug List if:
  - your doctor or other prescriber says you need them to get better or stay healthy,
  - HealthPartners MSHO agrees that the drug is medically necessary for you, **and**
  - you fill the prescription at a HealthPartners MSHO network pharmacy.
  
- In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.

You can also find an up-to-date list of drugs that we cover on our website at [healthpartners.com/medicarerx](https://healthpartners.com/medicarerx) or call Member Services at the numbers listed at the bottom of this page.

---

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](https://healthpartners.com/msho).

Updated on 07/22/2025

---

## B2. Does the Drug List ever change?

Yes, and HealthPartners MSHO must follow Medicare and Medical Assistance rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from HealthPartners MSHO before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check HealthPartners MSHO's up-to-date Drug List online at [healthpartners.com/medicarerx](https://healthpartners.com/medicarerx). Updates to the *Drug List* are posted on the website monthly.
- You can also call Member Services at the number listed at the bottom of this page to check the current Drug List.

---

## B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **Substitutions of certain new versions of drugs.** We may immediately remove the drugs from the *Drug List* if we replace them with certain new versions of that drug, but your cost for the new drug will remain \$0 with the same or fewer restrictions. When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.

This section is continued on the next page.

---

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](https://healthpartners.com/msho).

Updated on 07/22/2025

- We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
- We can make these changes only if the drug we are adding:
  - is a new generic version of a brand name drug, or
  - is a certain new biosimilar version of original biological products on the Drug List (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
  - some of these drug types may be new to you. For more information, refer to Section B14.
- You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to questions B10-B12 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or effective or the drug's manufacturer takes a drug off the market, we may immediately take it off the Drug List. If you are taking the drug, we will send you a notice telling you that. Please follow the instructions in the notice and talk to your doctor.

**We may make other changes that affect the drugs you take.** We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We remove a brand name drug from the Drug List when adding a generic drug that is not new to the market, or
  - we remove an original biological product when adding a biosimilar, or
  - we change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- tell you at least 30 days before we make the change to the Drug List **or**
- let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- if there is a similar drug on the Drug List you can take instead **or**

This section is continued on the next page.

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](http://healthpartners.com/msho).

Updated on 07/22/2025

- whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10-B12.

---

## **B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?**

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from HealthPartners MSHO before you fill your prescription. Prior authorization is different from a referral. HealthPartners MSHO may not cover the drug if you don't get prior authorization.
- **Quantity limits:** Sometimes HealthPartners MSHO limits the amount of a drug you can get.
- **Step therapy:** Sometimes HealthPartners MSHO requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables in section C1. You can also get more information by visiting our website at [healthpartners.com/medicarerx](https://healthpartners.com/medicarerx).

We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

**You can ask for an exception from these limits.** This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Refer to questions B10-B12 for more information about exceptions.

---

## **B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?**

The table in the List of Drugs by drug type has a column labeled "Necessary actions, restrictions, or limits on use."

---

## **B6. What happens if HealthPartners MSHO changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?**

In some cases, we will tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

---

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](https://healthpartners.com/msho).

Updated on 07/22/2025

## B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- you can search alphabetically, **or**
- you can search by drug type.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it in the back of this book. The Index of Covered Drugs is an alphabetical list of all of the drugs included in the Drug List. Brand name drugs and generic drugs as well as and over-the-counter (OTC) drugs are listed in the index.

To search **by drug type**, find the section labeled “List of Drugs by Drug Type” in section C1. The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

---

## B8. What if the drug I want to take is not on the Drug List?

If you don't find your drug on the Drug List, call Member Services at the numbers listed at the bottom of this page and ask about it. If you learn that HealthPartners MSHO will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask HealthPartners MSHO to make an exception to cover your drug. Refer to questions B10-B12 for more information about exceptions.

---

## B9. What if I am a new HealthPartners MSHO member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of HealthPartners MSHO. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead, or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- our plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by HealthPartners MSHO, **or**
- you are taking a drug that is part of a step therapy restriction.

This section is continued on the next page.

---

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](http://healthpartners.com/msho).

Updated on 07/22/2025

If you are taking a drug that HealthPartners MSHO does not consider to be a Part D drug, you have the right to get a one-time 72-hour supply of the drug.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new HealthPartners MSHO member.
- This is in addition to the temporary supply during the first 90 days you are a member of HealthPartners MSHO.

For existing members who change care level, such as entering a long-term care facility or being discharged from a hospital, we'll grant early refills when appropriate.

Please note that our transition policy applies only to those drugs that are "Part D drugs" and bought at a network pharmacy. The transition policy can't be used to buy a non-Part D drug or a drug out of network, unless you qualify for out of network access. Check your Member Handbook for information about non-Part D drugs.

---

## **B10. Can I ask for an exception to cover my drug?**

Yes. You can ask HealthPartners MSHO to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, HealthPartners MSHO may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

---

## **B11. How can I ask for an exception?**

To ask for an exception, call Member Services. A Member Services representative will work with you and your prescriber to help you ask for an exception. You can also read Chapter 9 section G of the *Member Handbook* to learn more about exceptions.

---

## **B12. How long does it take to get an exception?**

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours. Contact Member Services at the number at the bottom of the page to ask for an exception.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

---

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](http://healthpartners.com/msho).

Updated on 07/22/2025

## B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription—depending on state laws.

HealthPartners MSHO covers both brand name drugs and generic drugs.

---

## B14. What are original biological products and how are they related to biosimilars?

When we refer to drugs, this could mean a drug or biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to Chapter 5 of the *Member Handbook*.

---

## B15. What are OTC drugs?

OTC stands for “over-the-counter.” HealthPartners MSHO covers some OTC drugs when they are written as prescriptions by your provider. You can read the HealthPartners MSHO Drug List to find out what OTC drugs are covered.

---

## B16. Does HealthPartners MSHO cover non-drug OTC products?

HealthPartners MSHO covers some non-drug OTC products when they are written as prescriptions by your provider.

Examples of non-drug OTC products include eye drops, laxatives and vitamins.

You can read the HealthPartners MSHO drug list to find out what non-drug OTC products are covered.

---

## B17. Does HealthPartners MSHO cover long-term supplies of prescriptions?

- **Mail Order Programs.** We offer a mail order program that allows you to get up to a 100-day supply of your prescription drugs sent directly to your home. A 100-day supply has the same copay as a one-month supply.
- **100 Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 100-day supply of covered prescription drugs. A 100-day supply has the same copay as a one-month supply.

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](https://healthpartners.com/msho).

Updated on 07/22/2025

---

## B18. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

---

## B19. What is my copay?

HealthPartners MSHO members pay nothing for prescription drugs as long as the member follows the plan's rules. Refer to questions B15 and B16 for more information about OTC drugs and non-drug products.

Tiers are groups of drugs on our Drug List.

- Tier 1 Generic drugs have a \$0 copay
- Tier 1 Brand drugs have a \$0 copay.
- OTCs have a \$0 copay.

If you have questions, call Member Services at the numbers listed at the bottom of this page.

## C. Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by HealthPartners MSHO. If you have trouble finding your drug in the list, turn the Index of Covered Drugs that begin in section D. The index alphabetically lists all drugs covered by HealthPartners MSHO.

---

## C1. List of Drugs Grouped by Drug Type

The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the "Antimigraine Agents" category. That is where you will find drugs that treat migraines.

The first column of the table lists the name of the drug. Generic drugs are listed in lowercase italics (for example, *atorvastatin*), brand name drugs are capitalized (for example, HUMALOG), and OTC drugs and products are listed in lowercase (for example, guaifenesin). The information in the "Necessary actions, restrictions, or limits on use" column tells you if HealthPartners MSHO has any rules for covering your drug.

This section is continued on the next page.

---

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](https://healthpartners.com/msho).

Updated on 07/22/2025

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

ABBREVIATION	DESCRIPTION
PA	Prior Authorization Required
QL	Quantity Limit
BvD	This drug could be covered as a Part B or a Part D Benefit.
ST	Step Therapy Required
LA	Limited Access Drug – Some drugs may be available only at certain pharmacies. For more information consult your pharmacy directory or call Member Services.
NM	Non-Mail Order Drug – Drugs not eligible for a 100-day mail order supply through your mail order benefit are noted with “NM” under Requirements/Limits.

**If you have questions**, please call HealthPartners MSHO Member Services at **952-967-7029** or **888-820-4285**, TTY **711**, Oct. 1 through March 31, 8 a.m. to 8 p.m. CT, seven days a week. April 1 through Sept. 30, 8 a.m. to 8 p.m. CT, Monday – Friday. On Saturdays, Sundays and Federal holidays, you can leave a message and we’ll get back to you within one business day. The call is free. **For more information**, visit [healthpartners.com/msho](http://healthpartners.com/msho).
